About Conference

Biotech Congress 2024 (World Biotechnology and Bioengineering Congress) is an international conference organized by the Scholars Conferences scheduled during **23-24 September 2024** at **Singapore**.

The aims of this conference is to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Biotechnology, Bioengineering. It is also providing participants a platform for the dissemination and discussion of recent innovation and the most recent and exciting developments in Biotechnology, Bioengineering and Biodiversity for Sustainable Agriculture, Environment and Health their relevance for the welfare of mankind.

Purpose: The purpose of this Biotech Congress 2024 is to bring together leading professionals from academia, industry and government to discuss scientific and strategic advances resulting in global sustainability and to foster collaboration. The meeting will include a variety of important sessions ranging from agricultural and food biotechnology, applied microbiology, medical biotechnology, nanotechnology, biomaterials/regenerative medicine, synthetic biology, and more. "Frontiers in Biotechnology and Bioengineering Research" is the theme of the Biotech Congress 2024, which will provide an opportunity for scientists worldwide to present novel findings and innovations on biotechnology for 2024 and beyond.

Networking:

The development of bio-based technologies, by virtue of their being mild-energy intensive in nature and based on renewable feedstock, will pave the way for large usage of sustainable technologies in various sectors of economy such as renewable energy, food, agriculture, health-care, biodegradable polymers, biofertilizers, biopesticides, biopharmaceuticals, commodity and fine chemicals etc.

"Frontiers in Biotechnology and Bioengineering Research"

CONCEPT

The purpose of the Biotech Congress 2024 Conference is to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Exploring the Novel Advances in Biotechnology and Bioengineering.

AGENDA

The conference is a unique opportunity to present your latest research, hear to valuable intelligence and information. This is place where world leaders come to talk and listen.

NETWORKING

Unique networking opportunity across renewable CEOs, business heads, decision, and policy makers, choose to present their latest innovation through world wide.

Who Can Attend

- Academic Professionals
- Academic Researchers
- Biochemistry Researchers
- Business Entrepreneurs
- Biotechnologist
- Pharmaceutical Scientists
- Food, Environmental and Plant Scientists
- CEOs, COOs, Directors, Students from the biotechnology industry and academia
- Industry Leaders, Government Leaders
- Groups/ Associations
- Research Scholars and Students
- All other relevant professionals

Why Choose Us

- Learn
- Discuss
- Network and Connect
- Spread the Impact
- Recognized
- New tips & tactics Have fun

Scientific Sessions

- Agro-biotechnology and Natural Products
- Biomedical Science & Engineering
- Bioprocess Technology and Engineering
- Environmental Biotechnology
- Micro- and Nano-Biotechnology
- Applied Microbiology
- Systems and Synthetic Biotechnology
- Biopharmaceutical and Medical Biotechnology
- Drugs Delivery and Development
- Medical Devices
- Biocatalysis and Protein Engineering
- Bio-Digital Convergence Technology
- Biocatalysis and Protein Engineering
- Bioenergy and Biorefinery
- Bio-based materials
- Metabolic Engineering and Synthetic Biology
- Agricultural and Food Biotechnology
- Environmental Microbiology and Biotechnology
- Marine Biotechnology
- Tissue Engineering and Biomaterials
- Clinical and Public Health
- Bioprocess and Bioseparation Engineering
- Nanobiotechnology, Biosensors, and Biochips
- Bioindustry / Bio-Business

Day 01 | September 23, 2024 | Monday

08:00-09:00 - **Registrations**
09:00-09:30 - **Opening Ceremony**
