

CONCHA GONZÁLEZ DURÁN

PERSONAL STATEMENTS

A biologist fully committed to making a positive impact on society through science, I am creative, versatile professional with excellent communication and teamwork skills. As the person responsible for planning and managing cosmetic trials in a CRO, I effectively responded to increased labor demands by optimizing available resources. This led to improved operational KPIs, allowing for the execution of a greater number of studies without compromising the competitiveness of standard delivery times. By closely monitoring studies through SIV, IMV and COV, I identified on-site inefficiencies and resolved issues, ensuring quality assurance in line with GCP principles and meeting project deadlines.

WORK EXPERIENCE

Zurko Resesarch Madrid)| 11/2021-08/2024

Clinical Trial Planning Manager (01/2023-08/2024)

- I planned and monitored in situ cosmetic efficacy and tolerance trials, documenting the process through an eCRF, ensuring results were delivered within realistic deadlines, and providing competitive advantages to the client.
- I elaborated protocols and managed the necessary documentation at the beginning of projects.
- I led the coordination between cross-functional teams to solve the problems arising at different stages of study development (with the commercial, laboratory technicians, dermatology, recruitment or statistics departments).
- I facilitated the coordination between diferents sites (Madrid, Albacete and Barcelona) in order to operate standardized.

Assistant Technical Director (11/2021-12/2022)

- I identified inefficiencies in workflow and work procedures and implemented improvement processes.
- I coordinated area managers, guaranteeing the achievement of quarterly objectives.
- I optimized the recruitment department by redistributing functions among team members according to their skills to improve task efficiency.
- Analyzed relevant data for the establishment of new annual objectives.

One Scientific Ltd. (Bristol)| 01/2019-09/2019

Microbiology Laboratory Technician

- I processed food and water samples for subsequent analysis (plating, pouring and incubations in different cell cultures).
- I proceeded according to SOPs and ISO 17025 standards.
- I diligently maintained equipment and inventory, ensuring their proper functioning and optimal condition.
- I played a pivotal role in meeting daily production targets during a period of increased production due to a rise in customer demand making significant contributions.

EDUCATION

MOOC Machine Learning and Big data for

Bioinformatics (Universidad de Granada)| 02/2021-04/2021

Master of basic and aplied Neuroscience and pain (Universidad de Granada) | 10/2019-07/2020

Biology degree (Universidad de Extremadura) | 09/2013-12/2018
