Design and Share Your City

Aug 2021 - Aug 2021

CHANCE International Berlin / UniGrowth NGO

24 young people from Germany and Armenia are gathering together to learn concrete strategies for action: how can they optimize their immediate surroundings, e.g. streets, (school) yards, sports or playgrounds, bike paths etc. in their cities with low-cost measures and make the public aware of existing problem. Participants will get the opportunity to realize their urban project ideas and also strengthen their participation in their local community.

ME IN THE WORLD OF STORIES

Dec 2022 - Dec 2022

Youth BCN / Armenian Open Society

This project tackles the topic of social exclusion/social inclusion by using the method of Digital Storytelling. Participants expressed and share their views on social questions. We explored “The danger of a single story” aiming to discuss and reflect on real questions about social inclusion. Using a collaborative creative process that allowed them to process, filter, and shape the new information and create unique stories told and shared on a digital platform.

LabShip

Oct 2023 - Nov 2023

COBRAIN - Armenia

An excellent opportunity for students to gain theoretical and practical knowledge in laboratory work. Participants will work in biochemical, morphological, surgical, and behavioral labs during the workshop. The program also includes theoretical knowledge and guidelines for laboratory work procedures and equipment usage.

Advanced Molecular Biology

Mar 2023 - Present

Armenian Bioinformatics Institute

The Advanced Molecular Biology course covers the core concepts of molecular and cellular biology, genomes and genetic mechanisms, and much more.
