Dear colleagues,

I hope this letter finds you well. My name is Mariana Voitiuk, and I represent [Clinical Trials Ukraine \(CTU\)](#), a leading SMO dedicated to supporting clinical research in Ukraine. As an experienced partner in the field, we are eager to collaborate with Contract Research Organizations like yours to facilitate and enhance clinical trials in our region.

Who We Are

Clinical Trials Ukraine works from 2000s and is committed to providing exceptional support and services for clinical trials. Our team has successfully conducted 1200+ national and multinational clinical trials. We have 300K+ patients in database and 17 modern and well-equipped sites across Ukraine.

Our expertise spans 20+ therapeutic areas, and we pride ourselves on our adherence to international ethical standards and best practices. We offer a robust infrastructure and experienced personnel to ensure the smooth execution of clinical trials from start to finish.

Here are some key advantages of our Center:

- 24 years of experience in the field of clinical trials
- 1,200+ successfully completed clinical trials
- 17 modern and well-equipped sites across Ukraine
- 18 areas of Therapeutic Expertise
- 60+ experienced doctor-researchers

Previous clinical trials

Up to now, experts at ClinicalTrialsUA have conducted:

- over 100 clinical trials focusing on non-alcoholic fatty liver disease, gallstone disease, stomach and duodenal peptic ulcers, Crohn's disease, and various types of colitis.
- over 150 clinical trials to assess the effectiveness of medications targeting the treatment of dyslipidemia, heart failure, arterial hypertension, dilated cardiomyopathy, atrial fibrillation, and neurocirculatory dystonia.
- over 40 clinical trials focusing on medications for conditions such as prostate diseases, erectile dysfunction, sexual problems, urinary tract and kidney infections, and surgical conditions.

- over 25 clinical trials to assess the effectiveness of medications developed for treating conditions such as kidney failure, chronic cystitis, and chronic pyelonephritis.
- over 60 clinical trials encompassing a range of vaccines and immunomodulators. These trials delve into studying the body's immune response and the efficacy of specific medications.
- The ClinicalTrialsUA Center has conducted over 90 clinical trials for medications to treat and manage conditions related to diseases such as bronchial asthma, COPD, chronic bronchitis, and chronic tonsillitis.
- ClinicalTrialsUA is fully equipped to conduct personalized clinical studies in the field of stem and gene therapy based on client requests.
- Currently, 8 clinical trials are ongoing.

Sites of Our Comprehensive Network are Fully Equipped with:

- Computed tomography scan (CT) – State-of-the-art CT scanners from the world's leading manufacturer, Siemens, ensuring we meet all your needs with the latest and most advanced technology.
- Ultrasound systems – Ultrasound systems feature cutting-edge technology from leading manufacturers such as Siemens, Samsung, GE, Alpinion, Logiq, Toshiba, Aplio, and Phillips.
- Other equipment – Range of equipment includes endoscopes, Olympus colonoscopes, gastroscopes, colposcopes, and more.
- Magnetic resonance imaging (MRI) – Advanced Magnetic Resonance Imaging with Siemens Magnetom Sempra, among others.
- Mammography machines – Cutting-edge mammography machines from Lilyum and Metaltronika.
- X-Ray – High-quality X-ray imaging with the Diamond A5 X-ray system.

We are closely works with “ADONIS” Medical center, which was founded more than 25 years ago, and during this time opened 8 branches in Kyiv and the region and an innovative stem cell laboratory. In its branches, doctors conduct appointments in 65 medical areas.

Our Services

We offer a comprehensive suite of services tailored to meet the needs of both local and international organizations.

These include:

- **Provision of research sites:** access to state-of-the-art research centers equipped to handle various phases of clinical trials.
- **Independent site audits:** conducting thorough audits to ensure compliance with regulatory standards and best practices.
- **Site preparation for regulatory audits:** assisting sites in preparing for inspections by regulatory authorities.

- **Patient recruitment:** implementing effective strategies to recruit and retain patients for clinical trials.
- **Technical support:** providing independent technical support for sites dealing with specialized systems and equipment.
- **Patient visit facilitation:** ensuring smooth logistics for patient visits to research sites.
- **Training and education:** offering comprehensive training programs for investigators and site staff.
- **Specialized training programs:** conducting specific training sessions for the entire research team to ensure optimal performance.
- **Meeting and kick-off coordination:** organizing pre-study meetings and kick-off events to streamline trial initiation.

Why Ukraine?

Ukraine presents a unique and promising environment for clinical research. Despite the challenges posed by the ongoing conflict, our country continues to uphold high standards in clinical trials. Key advantages include:

- **Skilled medical workforce:** Ukraine boasts a highly qualified medical and scientific community, ensuring high-quality research and data integrity.
- **Cost-effective operations:** the cost of conducting clinical trials in Ukraine is relatively lower compared to Western Europe and North America, providing significant savings for sponsors.
- **Diverse patient population:** our country has a diverse patient population, enabling comprehensive studies across various demographics.
- **Regulatory support:** the Ministry of Health and the State Expert Center in Ukraine are committed to supporting clinical trials, as evidenced by the numerous studies approved and ongoing despite current adversities.

Invitation to Collaborate

We are enthusiastic about the potential for collaboration and look forward to discussing how we can support your clinical research initiatives in Ukraine. Our team is ready to provide detailed information and answer any questions you may have.

Please feel free to reach out to us at contacts below. We are keen to explore this opportunity further and to establish a mutually beneficial partnership.

Thank you for considering Clinical Trials Ukraine as your partner. We look forward to your response and the possibility of working together.

Warm regards,
 Mariana Voitiuk
